

Accolades for October 2021

I have been SO AMAZED at the creativity, flexibility, and accessibility of the options you and the other library staff have created for the community this year. So amazed. I get very happy and a little teary every month when I read the newsletter, explore the options, and think about all the work and planning and prep that has gone into all of it.

Pass the gratitude along, if you wish.

I am honored to be in this community with you!!

Blessings to your family this spring break week!

Nolan "I turned seven! I was so nervous about coming to the library. I get scared about making new friends. But I am glad I came today – I had fun!"

Thanks Will. For your leadership of the library. And your homey newsy stories about your own life, the library work, and cheerleading for the city of Newberg.
